1 PLANO DE RELEVAMIENTO

2 PLANIMETRIA DEL SITIO

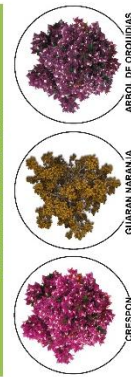

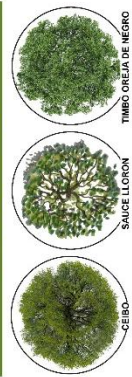

VEGETACION ALTA

The figure consists of three circular diagrams arranged vertically, illustrating the stages of tree canopy development. The top circle shows a sparse, young canopy with many gaps. The middle circle shows a more developed canopy with increased foliage. The bottom circle shows a very dense, mature canopy with minimal visible gaps.

Three circular images showing different types of moss. The top image is labeled 'TIMBO OREJA DE NEGRO', the middle image is labeled 'SAUCE LLORON', and the bottom image is labeled 'CEIBO'.
