Work with layout tables

TO DO THIS	PRESS
Change the width of the column to the left of the border without changing the width of the other columns.	Hold down SHIFT while dragging the border of the column.
Change the height of the row above or below the border without changing the height of the other rows.	Hold down SHIFT while dragging the border of the row. <small>NOTE For rows that are sized at their minimum height, this shortcut changes the height of the row above the border. A row's minimum height is determined by several factors, such as whether it contains text or controls.</small>
Resize all of the selected rows or columns to the same height or width.	Hold down ALT while dragging the border of the row or column.
Move between the next or previous cell in a table.	TAB or SHIFT+TAB <small>TAB adds a new row to a table if you press it while the pointer is in the last cell of the last row.</small>
Select or cancel the selection of a table cell.	F2
